

Internship Opportunity: Data Scientist / ML Engineer Intern

Position: Data Scientist / ML Engineer Intern

Department: AI / Machine Learning / Data Science

Location: Indore / Mumbai

Internship Duration: 3–6 Months

PPO Opportunity: Yes – Based on Performance

Eligibility

Students pursuing:

- B.Tech / M.Tech
- Computer Science / AI-ML / Data Science / Statistics
- Preferred from IITs, NITs, IISERs, and Top Engineering Institutes

About the Internship

We are looking for passionate and research-oriented Data Scientist / ML Engineer Interns who are eager to work on real-world AI and Machine Learning problems.

This internship offers hands-on exposure to Machine Learning, Deep Learning, Generative AI, NLP, predictive analytics, and intelligent product development.

Interns will work closely with AI, Product, Engineering, and Analytics teams on live AI-powered products and data-driven business solutions.

Key Responsibilities

- Assist in building and training Machine Learning models.
- Work on AI/ML-based business use cases and intelligent systems.
- Perform data preprocessing, feature engineering, and model optimization.
- Analyze structured and unstructured datasets for insights.
- Support development of predictive and recommendation models.
- Work on NLP and Generative AI-related projects.
- Assist in model evaluation, testing, and deployment workflows.
- Collaborate with engineering teams for AI integration into products.

- Participate in research, experimentation, and AI innovation initiatives.
- Explore AI automation and scalable ML pipeline development.

Required Technical Skills

Core Skills

- Basic understanding of:
 - Python
 - SQL
 - Statistics & Probability
 - Data Structures
- Familiarity with:
 - Pandas
 - NumPy
 - Scikit-learn
- Basic understanding of:
 - Machine Learning
 - Deep Learning
 - Predictive Analytics
- Good analytical and problem-solving abilities.

Preferred Skills

- Exposure to:
 - TensorFlow / PyTorch
 - NLP concepts
 - LLMs
 - Data Visualization tools
 - AI/ML projects
- Basic understanding of:
 - Model Deployment
 - APIs
 - Cloud AI services

- Participation in Kaggle, research, or AI competitions is preferred.

AI Knowledge (Mandatory)

Candidates should have basic understanding of:

- Generative AI concepts.
- LLMs and Prompt Engineering.
- AI APIs and AI-assisted development tools.
- NLP and intelligent automation workflows.
- Responsible AI and ethical AI fundamentals.

What We Are Looking For

- Strong analytical and research-oriented mindset.
- Passion for AI, ML, and emerging technologies.
- Curiosity to solve real-world business problems using AI.
- Quick learner with experimentation mindset.
- Good communication and collaboration skills.

Internship Benefits

- Hands-on exposure to AI/ML and Generative AI projects.
- Opportunity to work on live intelligent product development.
- Exposure to modern AI technologies and scalable ML systems.
- Mentorship from experienced AI and Engineering teams.
- Potential full-time opportunity based on performance.

Educational Qualification

- Pursuing Bachelor's/Master's degree in:
 - Computer Science
 - AI/ML
 - Data Science
 - Statistics
 - Mathematics

- Engineering
- Or related fields

How to Apply

Interested candidates can share:

- Resume
- GitHub/Kaggle/LinkedIn/Profile Links
- AI/ML Project Details
- Internship Availability Duration
