

Internship Opportunity: Data Science Intern

Position: Data Science Intern / AI-ML Intern

Department: Data Science & Analytics

Location: Indore / Mumbai

Internship Duration: 3–6 Months

PPO Opportunity: Yes – Based on Performance

Eligibility

Students pursuing:

- B.Tech / M.Tech
- Computer Science / Data Science / AI-ML / Statistics
- Preferred from IITs, NITs, and Top Engineering Institutes

About the Internship

We are looking for passionate and analytical Data Science Interns who are eager to work on real-world AI and data-driven problems. This internship offers hands-on exposure to Machine Learning, AI technologies, predictive analytics, data visualization, and intelligent product development.

Interns will work closely with Data Science, Product, and Engineering teams on live business problems and AI-powered solutions.

Key Responsibilities

- Collect, clean, and analyze structured/unstructured datasets.
- Assist in building Machine Learning and predictive models.
- Work on AI/ML-based business use cases and automation workflows.
- Perform statistical analysis and data interpretation.
- Create dashboards, reports, and data visualizations.
- Support model training, testing, and optimization activities.
- Work on data preprocessing and feature engineering tasks.
- Research latest AI and Generative AI technologies.

- Collaborate with engineering teams for AI integration into products.
- Participate in experimentation, documentation, and reporting.

Required Technical Skills

Core Skills

- Basic understanding of:
 - Python
 - SQL
 - Statistics & Probability
 - Data Structures
- Knowledge of:
 - Pandas
 - NumPy
 - Scikit-learn
- Basic understanding of Machine Learning concepts.
- Familiarity with data visualization tools/libraries.

Preferred Skills

- Exposure to:
 - TensorFlow / PyTorch
 - Power BI / Tableau
 - NLP concepts
 - Data Analytics projects
- Understanding of cloud AI/ML platforms is a plus.
- Participation in AI/ML competitions or projects is preferred.

AI Knowledge (Mandatory)

Candidates should have basic understanding of:

- Generative AI concepts.
- Prompt Engineering basics.

- LLMs and AI-powered tools.
- AI APIs and automation workflows.
- AI-assisted research and development tools.

What We Are Looking For

- Strong analytical and problem-solving mindset.
- Curiosity for AI, ML, and emerging technologies.
- Passion for working with data and intelligent systems.
- Good communication and collaboration skills.
- Quick learner with research-oriented thinking.

Internship Benefits

- Hands-on exposure to AI, ML, and real-world data science projects.
- Opportunity to work on live business and fintech use cases.
- Mentorship from experienced Data Scientists and Engineering teams.
- Exposure to modern AI and Generative AI technologies.
- Potential full-time opportunity based on performance.

Educational Qualification

- Pursuing Bachelor's/Master's degree in:
 - Data Science
 - Computer Science
 - AI/ML
 - Statistics
 - Mathematics
 - Engineering
 - Or related fields

How to Apply
